

## CE Expert System

### Version 67.0 Release Notes

This version of the CE Expert System was implemented on 7th February 2019.

Work Item#	Description
26586	<b>B: A-2 validation adjustment for Vegetation Other Mitigation</b> When B:A 2 Vegetation Mitigation is not selected, validation error message will be displayed.
32420	<b>Scoping Design Criteria – Add Bridge Projects to Proposed Design Criteria</b> “Bridge Projects” is a selectable option in the Proposed Design Criteria dropdown listing.
32361	<b>B: A -6 Air Quality</b> Text updated from ‘go’ to ‘goes’ in the orange note, “If no, the system skips the Regional Conformity section and go to Project Level Impacts to CO” under “Is the project in an air quality nonattainment or maintenance area?”
32360	<b>Scoping - Environmental</b> Updated message in the Environmental alert prompted when users refresh GIS assets in the Scoping document to read, “Distances could not be found for the following asset(s):”
32358	<b>B: A-4 Emergency Relief Exempt Project Activities</b> Emergency Relief Exempt Project Activities list updated to reflect changes in the programmatic agreement.
31901	<b>Security Alerts</b> Due to changes in project responsibilities the “CEES – Suspicious Anonymous Activity” email alert distribution needs to be updated.
31695	<b>Section A: Gen – Context Sensitive Solutions</b> Removed “Have context sensitive solutions and/or smart transportation strategies been integrated into the project?” All PennDOT projects use smart transportation strategies.
