

CE Expert System

Version 41.0 Release Notes

This version of the CE Expert System was implemented on 26 March 2012.

Area	Description	ClearQuest #
CE/ED 1a Package Types	<p>Various</p> <ul style="list-style-type: none">• B:A-4 is now required/included for all Emergency Projects.• A save on the Package Document no longer changes included, non-required documents back to not included.<ul style="list-style-type: none">○ This was happening when users were including documents such as B:A-4. Saving a change on the Package Document was flipping B:A-4 back to not included.• An error is now generated when users attempt to submit a package where B:E has auto-filled avoidance/mitigation data, but B:E is not included.• All non-included documents are now part of reevaluations, regardless of original authors.<ul style="list-style-type: none">○ This was happening when the evaluation author (especially with consulting firms) was different from the author clicking the Create Reeval button. Non-included documents in the evaluation were not copied to the reevaluation.• Users who do not include a document in the original submission are no longer blocked from including it in a revision.	24, 200, 201, 214, 229
MPMS Milestones	<p>Approval dates of state-funded (ED) packages are now sent to the MPMS Phase screen</p> <ul style="list-style-type: none">• Includes Level 1a ED, Level 1b ED, Level 2 ED, EER and Programmatic ED (BRPA) packages.	223
TIP/LRTP Funding	<p>Package Document TIP/LRTP table can now be refreshed in "Revision" status</p> <ul style="list-style-type: none">• Likewise, users are forced in revision to provide comments if any TIP date is missing.	202, 222

Smart Form	<p>Various</p> <ul style="list-style-type: none"> • On A:Eng, if any Traffic Control Measure question is changed to “true”, the system now blanks out the False Explanation. • On B:A-6, when Noise question 1 Type III is “yes”, questions 2 & 3 are now hidden. 	122, 213
Administration/ Navigation	<p>Various</p> <ul style="list-style-type: none"> • TIP/LRTP coding has been pulled into a shared script for access by multiple processes. • “undefined” no longer appears for Additional Email selections in the Package Document. <ul style="list-style-type: none"> ○ This was happening when users picked more than one recipient and then later tried to change the list. • Reports were fixed to not include data for the day prior to the Start Date selected in the date range. • Print button now works on the Package Summary report. • A new view “Admin/Package Funding by Status” has been added to the navigator in Main and the two Archives. • The latest release of Edit-on Pro has been added to the Help database. • “By Status” links have been removed from both archives because all statuses are “Approved”. 	172, 204, 228, 231, N/A
