

CE Expert System

Version 57.0 Release Notes

This version of the CE Expert System was implemented on 11th Feb 2016.

Area	Description	Clear Quest #
Package Document	<ul style="list-style-type: none"> ▪ <u>EA, EER and EIS Evaluations</u> validation has been added to prevent users from adding tracking dates that are not in the correct order. The tracking dates are listed in order, and each tracking date must be equal to or greater than the tracking date listed before. Previously, users were able to input dates which may not be in the correct order. 	CEESU00000010
	<ul style="list-style-type: none"> • <u>EIS, EA and EER Re-Evaluations</u> if Mark as Approved is checked on re-evaluations then users must check the “Upon re-evaluation, as supported by the attached documentation, this project qualifies as (EIS/EA/EER) Reevaluation” checkbox. An error message will display if not checked during validation. Previously, this validation was not present. 	CEESU00000198
Results	<ul style="list-style-type: none"> • <u>Scoping Results page</u> the <i>Submit</i> button previously contained a hardcoded form name which did not allow the form to correctly utilize versioning. This hardcoded form name was removed from the <i>Submit</i> button and replaced with a conditional value so that versioning can take place. If this hardcoded value was not corrected users would be unable to use the <i>Submit</i> button on the new version of the Results page. 	CEESU00000483
Results	<ul style="list-style-type: none"> • <u>Results page</u> if the project meets BRPA requirements, the BRPA activity must be identified with the selection button. When clicked a pop-up will open where users can select the Part, Stipulation, and Activity Name. Users can check all that apply. After making selections and clicking update, the pop-up will close and the selections will display in the text box below. Previously, users may have had to research what A, B, and C represented. 	CEESU00000142
