

## CE Expert System

### Version 37.0 Release Notes

This version of the CE Expert System was implemented on 04 April 2011.

Area	Description	ClearQuest #
Administration	<b>Various system administration enhancements</b> <ul style="list-style-type: none"><li>Logging forms, views and other design elements were removed from the Main database. In release 36.0, logging was moved to its own database, therefore these design elements were no longer needed.</li><li>The “fix field” Properties button is now hidden when status is “Approved”.</li></ul>	169, 33
EM Review	<b>Environmental Managers can now change data during their review cycle</b> <ul style="list-style-type: none"><li>During status “EM Review”, Environmental Managers can now check out documents and make changes before clicking the Concur or Approve buttons. This streamlines the review process within the Districts by not requiring that EMs request a revision so that changes can be made.</li></ul>	159
Miscellaneous	<b>Various non-ClearQuest enhancements</b> <ul style="list-style-type: none"><li>The ECMTS links that were not working in the Archives have been fixed.</li><li>A generated CE Scoping can no longer be changed to a BRPA Scoping.</li><li>CE and EA handbooks in Help replaced by DM-1B guidance.</li></ul>	N/A
Navigation	<b>The “By Author” view has been relabeled “By Creator”</b> <ul style="list-style-type: none"><li>This change was made to avoid confusion with term “author”, which from a security standpoint determines who can edit a package. Term “creator” also ties in with “Created On” information.</li></ul>	125
Reevaluations	<b>A new summary section has been added to the Package Document</b> <ul style="list-style-type: none"><li>Authors are now asked to summarize their data changes on a document by document basis for CE/ED packages.</li><li>A new checkbox has been added to make authors confirm that the Classification and Level are appropriate for the reevaluation.</li></ul>	155

Revisions	<b>Authors can now change Package Document data when package is in revision</b> <ul style="list-style-type: none"><li>• Authors will no longer need to contact the Help desk to change Federal Funding, Oversight, etc. when a package is being revised.</li></ul>	165
Verification	<b>The Check In button now runs verification routines</b> <ul style="list-style-type: none"><li>• In the past, clicking the Check In button circumvented verification routines.</li></ul>	22
