

**CE/EA Expert System**  
**Version 26.0 Release Notes**

This version of the CE/EA Expert System was implemented on 21 April 2008.

PETS #	Description	Area
<b>3718</b>	A fix was made to the ECMS Project Development Checklist "Redo" window such that all selected packages are now remarked for processing.	System Admin
<b>4119</b>	A "CEEA Alert" area has been added to the Home Page as an orange block that hovers over the main image. System Administrators can add a message to this area to alert users of system issues, upcoming meetings/deadlines, etc.	System Admin
<b>4144</b>	When a package has more than one MPMS number, the system now sends link information to the ECMS Project Development Checklist for each MPMS.	Data
<b>4159</b>	In the Package Document, when users answer "No" to Federal Funding, the system now pre-fills the FPN with "N/A".	Smart-Form
<b>4226</b>	When a new package has multiple CE/ED Roadway and Structure documents, users can now delete all but the first roadway/structure form.	System
<b>4248</b>	When creating an Evaluation from a Scoping that was approved more than 3 years ago, users are now prompted to confirm that current project area conditions and level of environmental document are consistent with the scoping package. Additionally, approval dates have been added to the links in Package Document that associate one package with another... scoping-to-evaluation and evaluation-to-reevaluation.	System
<b>4250</b>	Users are now shown an error when they attempt to attach files with special characters: pound(#), ampersand(&) and question mark(?) in the file name. Users must clear the file path to proceed.	System
<b>4252</b>	The "By Date" view has been changed such that in the main database it is based on "Create Date", while in the archive it is based on "Approval Date".	Data
